

Orenda Immune

Orenda Immune® supports both cellular detoxification and immune system balancing.* The advanced ingredients Calcium d-Glucarate, Muramyl Peptides and Beta 1,3 glucans are some of the most powerful immune compounds discovered. Together they create profound synergy for your Immune System. This proprietary blend of ingredients is exclusive to Orenda Immune®.

Beta 1,3 Glucans

Support the Immune system by connecting directly with receptors on circulating immune cells to promote their activity*.

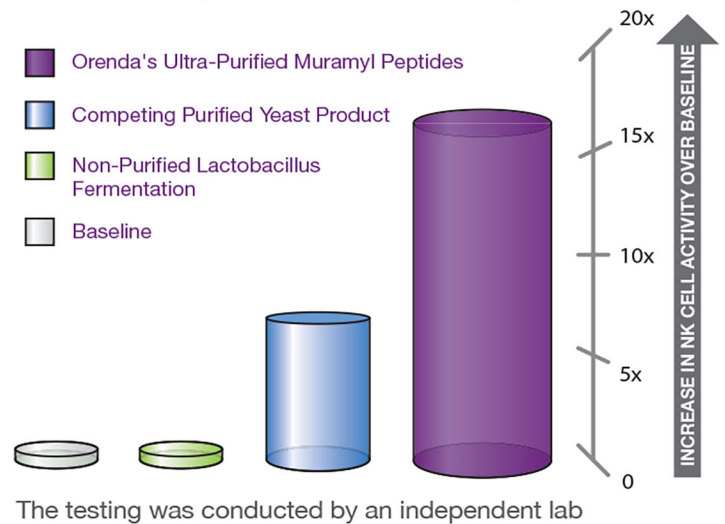

Muramyl Peptides

Help to activate Natural Killer cells*.

Calcium d-Glucarate

Supports your body's natural process of cellular detoxification, also known as Glucuronidation*.

ACTIVATION OF NATURAL KILLER CELLS (16X OVER BASELINE)

The Process of Glucuronidation

- 

1. Glucarate covers cell.
- 

2. Toxins attack cells.
- 

3. Through glucuronidation harmful substances are removed from the cells, made water soluble, and eliminated from the body.
- 

4. A harmful enzyme often reverses glucuronidation, releasing toxins back into the body.
- 

5. Glucarate from cell bonds with the enzyme, preventing its harmful actions.
